Part numbers with \* are correct length for corresponding aircraft fork pin hole. Part number with \*\* are correct length for clevis pin to fit our turnbuckle toggles that start with part number "T". Grip length is measured from inside of head to inside of cotter pin hole. Part numbers are dimensions in 32nds of an inch.

**Rigging Pins**

RP

5/8	3-1/2	RP20112	14.99
5/8	6-1/2	RP20206	17.98

Rigging Pins with a cotter pin in each end are used where a longer pin is needed. Grip is measured from inside of the cotter pin holes. Cotter pins not included. Stainless steel. Other sizes available by special order.

The numbers in Cotter, Clevis, and Rigging Pin Part Numbers represent dimensions in 32nds of an inch. The first two numbers indicate diameter and the remaining numbers indicate the grip or useable length of the pin.

**Cotter Rings**

COTR w/Pig Tail

ID Ring	For Clevis Pin	Part Number	Price Each	Price 100-Pack
3/8	3/16	COTR12	0.30	17.60
5/8	3/16-1/4	COTR20	0.40	22.85
5/8	3/16-1/4	COTR20PT*	0.35	19.00
3/4	1/4-3/8	COTR24	0.55	24.50
7/8	5/16-3/8	COTR28	0.14	18.34
1-3/16	1/2-5/8	COTR38	1.85	66.00

\*Pig Tail  
Add PK to Part Number for 100-Pack

Cotter rings in our opinion should not be used in standing rigging applications. These are more common on lifeline pins and turnbuckles where they can be checked more often for secure engagement.

**Cotter Pins**

COTP

Diameter	Grip	Part Number	Price
1/16	3/4	COTP0224	0.07
