

Schaefer Snapfurl Jib Furlers

Part Number	System Length	Wire Size	Pin Diameter	MFG List Price
SCHCF500	31' 1"	1/8 to 3/16	1/4 to 3/8	882.00
SCHCF700	37'	3/16 to 7/32	3/8 to 7/16	1588.00

The Snapfurl reefing and furling system installs easily over an existing headstay making it a good choice for trailerable boats. The CF500 is recommended for boats 16' to 24' and the CF700 for boats 24' to 28'.

Schaefer Free Furling Jib Furlers

Description	Part Number	Avg. Boat Size - Jib	Avg. Boat Size- Staysail	Max Wire Size	Pin Dia.	FreeFurl Load	MFG List Price
Swivel/Drum/Line Kit	SCH350-00	14 - 19 ft.	NA	1/8	1/4	550 lbs.	471.00
Swivel/Drum/Line Kit	SCH550-00	19 - 25 ft	Up to 34 ft.	3/16	5/16	1000 lbs.	758.00

Tuff-Luff Aero represents a major evolution of slotted headstay systems. Its unique aerodynamic shape provides at least 9% more lift.

Faster wind reattachment to the sail with less turbulence is also a benefit of the patented teardrop shape. If you have the need for speed, you have a need for TuffLuff Aero.
